DR. O. Kuney, amo/GP
DR. L. Makando, physician
DR. J. Mardai, GP
DR. P. Melkert, pathologist
DR. M. Wanjara, gynaecologist

Bridging worlds

The annual meetings in Arusha, Tanzania (PHC-congress, ultrasound seminar and practical teaching) will continue to strive to bridge continents and bring doctors together from Europe and Africa.

The goal of the congress is to bring together 25 Dutch/European and 25 Tanzanian/African doctors interested in primary health care and tropical pathology. The focus will be on general practice and how to manage patients in hospitals and clinics.

I am sure that these courses with practical teaching will be educationally excellent. There will also be a social program that will enable participants to make new friends and to celebrate old friendships.

Faculty Members:

DR. David Dyauli, paediatrician
DR. Charles Mbwangi, gynaecologist
DR. Clement Makule, physician
DR. Peter Melkert, pathologist
DR. Onno Terpstra, surgeon
