DR. P. Melkert, pathologist DR. L. Makando, physician

Bridging worlds

The annual meetings in Arusha, Tanzania (PHC-congress, ultrasound seminar and practical teaching) will continue to strive to bridge continents and bring doctors together from Europe and Africa. The goal of the congress is to bring together 25 Dutch/European and 25 Tanzanian/African doctors interested in primary health care and tropical pathology. The focus will be on general practice and how to manage patients in hospitals and clinics. I am sure that these courses with practical teaching will be educationally excellent. There will also be a social program that will enable participants to make new friends and to celebrate old friendships.

Faculty Members:

DR. M. Wanjara, gynaecologist DR. C. Makule, physician
DR. C. Mbwani, gynaecologist DR. P. Melkert, pathologist
DR. J. Schuurmans, GP DR. A. Mushi, m.d.

Your accommodation and travel expenses (bus fee) will be refunded (max. 12.000 TSH per day, all in). sponsored by Kilimanjaro Foundation.

If you wish to register for participation or information about our activities, please send the enclosed registration-form or e-mail with your name and details to:
